

# **NATURES PATH TO TRUTH**

**By Gil Gilmore**

## **Introduction**

Did you know nature reveals itself to all of us through our 3 dimensional world? “NATURE” the most amazing advertisement of all time! After reading this book, you will have to believe a great creator/designer exists! Now, when you come to the understanding this designer actually exists you will have to make a life changing decision. As you read through this book, think of what is being said. Compare it to your life experiences and your common sense. Please read this information with an open mind, you will be amazed of the many ways this creator reveals himself to us! He deals with us straight forwardly, not in some abstract eerily manner in which we are trying to figure out if it’s really him. Finally, as the reader, you must remember this truth as you read, “Design Implies Intelligence!” Meaning, where there is a finished designed product, thought and intelligence came before the product! Thought and intelligence implies a “Living Being” So as you read, keep this in mind! Enjoy!

## Part 1

### THE HUMAN BODY

Imagine you were stranded in a deserted far-away desert. As you walk along in the hot sun, seeing nothing or nobody. You look left and right and all you see is dry hot sand for miles upon miles.

Now as you continue walking, you come upon an old wristwatch. You pick it up and examine it.

The back of the watch is off and the movement of the watch is exposed. You can see the details and hundreds of parts that it takes to make this watch.

Now more importantly, you can see how these parts are put together to let the watch work. You begin to think about your find! Stop! [There are several ways you could go with your thinking] the first thoughts of a reasonable person could be, “someone has been here in the desert and someone designed this watch”. Or one could think “the sands of the desert, by the wind and time, came together to form a wristwatch.”

The latter thought would be harder to believe based on our life experiences. The more rational thought is someone has been here before and the watch was designed by someone. Keep this example in mind as you read through this book.

Now let’s take a look at the human body. Start with your hands. Look how they work, how the
